From Studio to Shop

1 Trends, Market Research & Focus Groups

A theme and style of work that is always popular, commercial and can also be used in schools.

We observed the market and looked at what our competitors are doing regarding kids learning games/equipment.

2 Studio Brief

3 Initial Ideas

The designer now moves onto coming up with some ideas. Trying to create a design to fit all the packaging/ product needs, looking at a colour pallete, fonts & logo concept.

4 Designs applied to Products

Designer creates artwork from which the products will be made.

This goes through an approval process before being sent to print.

5 Artwork sent to Print in China/DG Wales

Artwork is sent to china/wales. then a sample will come back for checking.

Once approved the product will then be printed for mass production.
